

# fold3

*Traditionally, the third fold in a flag-folding ceremony honors and remembers veterans for their sacrifice in defending their country and promoting peace in the world.*

Footnote.com was developed in 2007 by iArchives. It was a subscription Web site that featured searchable original documents, providing over 35,000 paying subscribers with a view of the events, places and people that shaped the American nation and the world. In 2010 Ancestry.com purchased iArchives . In 2011 Ancestry reintroduced footnote.com as fold3, a website that would focus on military records. Researchers still have access to all the other non military records that footnote had in its database.
