The US Gov. has severely cut back on funding for the cure. A 501(c)3 organization (see above) has been set up to provide private funding of the search for the cure. There is sufficient technology today to find the cure – we must support “dream teams” of top notice scientists.

## REQUEST FROM ME TO YOU

*From Snopes.com*

*If you are going to pass something along . . .*

*Let it be THIS*

*E-mail petitions are **NOT** acceptable to Congress or any other municipality. To be acceptable, Petitions must have a signed signature and full address on them.*

*Same with 'prayer chains'*

*The sole purpose of these e-mails that ask you to add your name and forward on to others is to get names and 'cookie' tracking info for telemarketers and spammers in order to validate active e-mail accounts for their own Purposes*

*Any time you see an e-mail that says forward this on to '10' of your friends, sign this Petition, or you'll get good luck, or what ever, **It has either an e-mail tracker program attached that tracks the cookies and e-mails of those folks you Forward to, or the host sender is getting a copy. Each Time it gets forwarded, it's able to get lists of 'active' e-mails to use in spam e-mails, or sell to others that do.***

*(If you have been sending out the above kinds of email, you now know why you get so much spam!)*

*Check it out: <http://www.snopes.com/inboxer/petition/internet.htm>*
