I had never heard of this before receiving an e-mail.

Why the press didn't report it?

This is the "TEAR DROP" made and installed by the Russians to honor those who died in 9 11 and a statement against terrorism. It is very impressive. The tear drop is lined up with the Statue of Liberty

Time cures everything, but there are things we cannot and must not forget. Standing more than 100 feet tall, “To the Struggle Against World Terrorism” honors victims of 9/11 and the 1993 World Trade Center bombings and serves as a symbol of solidarity in the fight against world terrorism.

Created by Russian sculptor Zurab Tsereteli, the memorial was a gift from the Russian people. Dedicated on September 11, 2006, it stands in direct view of the Statue of Liberty and the former World Trade Center.

Standing at 100 feet tall and weighing 175 tons, the monument was shipped from Russia to the United States in six sections — weighing between 28 and 63 tons each — and assembled by a group of Russian artisans.

Russian artist Zurab Tsereteli spent several months in the U.S. overseeing construction of the memorial.

This is the "TEAR DROP" made and installed by the Russians to honor those who died in 9 11 and a statement against terrorism. It is very impressive.

The tear drop is lined up with the Statue of Liberty .

The walkway is made of stones.

“To the Struggle Against World Terrorism,” was conceived as the events of 9/11 unfolded and Russian artist Zurab Tsereteli walked the streets of Moscow.

Struck by the outpouring of grief he observed, a memorial with an image of a tear formed in his mind. Shortly after the attacks, Tsereteli visited ground zero and looked to New Jersey’s waterfront for an appropriate site for a monument honoring victims of the World Trade Center terrorist attacks.

Zurab Tsereteli is one of Russia’s most prominent and prolific artists. A sculptor, designer and architect, he captures significant historical events in large-scale sculptures and monuments on view in museums and public spaces throughout Russia, Europe, Israel, Uruguay and the United States. Other noted works by the artist include the “Victory” monument at the Moscow War Memorial, “Peter the Great” in downtown Moscow and “Good Defeats Evil” a sculpture created from scrapped American and Soviet missiles on the grounds of the United Nations in New York.

The nickel-plated teardrop contained within the monument weighs four tons and measures approximately 40 feet high.

THE MEMORIAL AT HARBOR VIEW PARK

Bayonne, New Jersey

A gift from Tsereteli and the Russian people, the memorial is made of steel sheathed in bronze.

Standing 100 feet high, its center contains a jagged tear. In it, hangs a 40-foot stainless steel teardrop, representing sadness and grief over the loss of life, but also hope for a future free from terror. Etched in granite on an 11-sided base are the names of the nearly 3,000 killed in the 1993 World Trade Center bombings and terrorist attacks on Sept. 11, 2001.

LIBERTY

Liberty is not something to be taken lightly, but something to relish and defend with vigor.

If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land. 2 Chronicles 7:14
