

The new look of Internet Explorer 9

Where are File/ Tools/ Help/ ?????

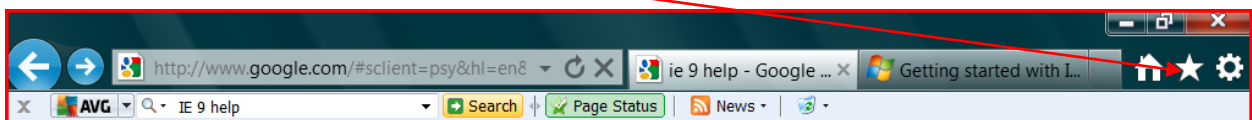

There is a new, cleaner, leaner look to IE 9 which may frustrate you in the beginning.

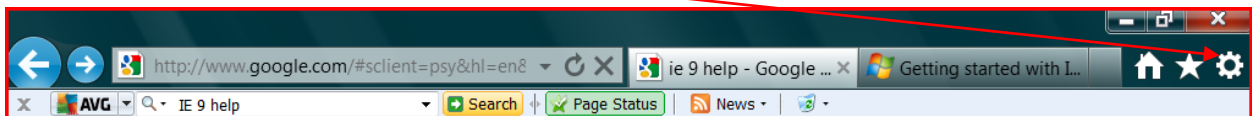

The Home is located here

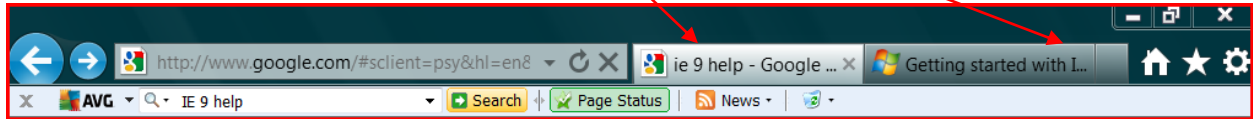

Favorites are located here

Tools is located here

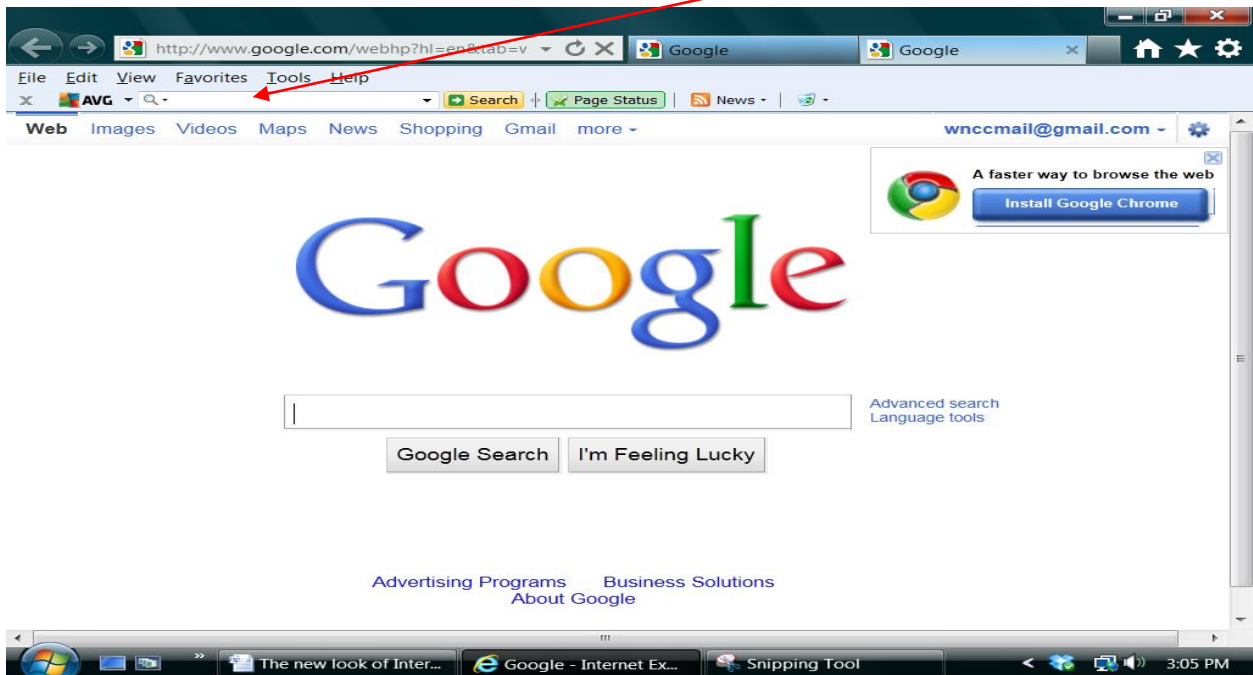

These are your new tab locations

## How to view the Menu Bar

Press the ALT button on your keyboard and you will see this

This is only a temporary view of the menu bar. You will need to do it each time you want to see the menu bar.

Further update on the menu bar to follow at another date. You have to make registry changes so I need to look into this more closely before I advise you to do it.
